Most of the wood, especially in our Atlantic States, is sold in lots of 100 ft. to 1,000 ft. and so it is not very likely that a city owned mill is responsible for any long term loss. Most cities in the South at present are plagued with the superfluous piles of salvaged lumber from the homes of thousands of war-torn soldiers, and the piles of lumber, in fact, are no longer used and accumulated that brought some substance to the lumber yards in a past time when such practice was more than a war-time defect for leaving the machinery unattended with the business of wheat growing and distribution.

Every Child Wants—Needs—TEXCRAFT

Patterns
leap like
MAGIC
at the
Crayon's
Touch

Fascinating -- Thrilling -- New -- Educational

TEXCRAFT is not "just another drawing set". It is a subtle and peaceful, so different and has so many uses that it almost defies description; but, once having seen it, you will want a set then and there for that boy or girl of yours—perhaps several sets, one for every child in the family.

With magic endless patterns leap to life on paper as Texcraft crayons are drawn over the outline sketches supplied—24 of these. Ten different colored crayons are available; 8 reusable Texcraft pattern cards supplied. These, in combination, produce works of real beauty; many-colored pictures that boys and girls will want to hang proudly in their rooms or paste in scrap books.

And Texcraft is so simple youngsters master it in minutes yet never tire of its almost infinite variety. They develop their artistic talents while at the same time having a lot of fun—quite fun—the kind that doesn't distract housework.

The set comes in a strong box, 16" x 12½" decorated with a richly colored cover. As a birthday gift for boy or girl of almost any age Texcraft is ideal; nothing could be more suitable or welcome as a Christmas box. By all means SEE Texcraft but, if local stores do not so get check it, write us for name of nearest dealer or, if you prefer, enclose money order for \$1.15 and a set will be mailed post paid to any address in Canada.

Different as DAY from NIGHT

OLD DUTCH CLEANS LIKE THIS.

The flaky, flat-shaped particles cover more surface, contact it completely, remove dirt with a smooth, clean sweep and do not scratch... as illustrated by this diagram of a greatly enlarged Old Dutch Cleanser particle.

ORDINARY GRITTY CLEANSERS SCRATCH LIKE THIS. Avoid them.

Their chunky, sharp-pointed particles are inefficient and wasteful; they scratch the surface and leave hiding places for dirt and germs—as illustrated by this diagram of a greatly enlarged gritty particle.

■ and it's this difference that makes Old Dutch cost less to use. Unlike ordinary cleansers, Old Dutch contains no wasteful, scratchy grit; its flaky, flat-shaped particles are more efficient because they cover more surface, go further and do much more actual cleaning per penny of cost. There's nothing else like Old Dutch because it is the only cleanser made of pure "seismotite," scientifically recognized as the finest cleaning material.

Old Dutch is safe and perfect for all your cleaning from porcelain, tile and enamel to

kitchen utensils and floors. It saves money, time and labor because you get a full package containing billions of active little cleaning units that clean quicker, clean more things, bring healthful cleanliness, do not clog drains—odorless and removes odors. There is no substitute for the quality and economy of Old Dutch Cleanser.
